Oh, and you had originally mentioned sending this to congressional offices to offer briefings. Are you still thinking of doing that? And is it worth sending this to Mayor Baraka's office?

Importance: High

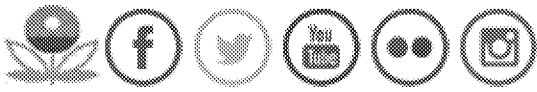

No WAIT! This one isn't it either. This is what you sent me originally – it has been extensively edited since then. Attached is what I sent you most recently

I will send to the Councilman and the CAG and post to the SPP.

The file you attached still had a comment from you in the margins, and it was in Word. Would you double check that you sent the real final version?

Also, the font seems to have been made smaller, but the fact sheet still runs to 3 pages, with a large blank on page 2. Could we either compress every down to 2 pages or increase the font to something readable to take up the full 3 pages?

Finally, I think we need to PDF this before providing it to anyone, but I can do that if you give me the final Word version.

Alice,

We're good to go. Final attached. I will use the same language for the Announcements section in the SPP. Let's coordinate to make sure they're both up around the same time.

Would you like me to forward the FAQs to the Ana, Michele, Doug, and Drew?

Thanks!

I was thinking of having CDM add the following blurb on ourPassaic.org, under Project News, to introduce the FAQs. Let me know if you have any comments.

Project News:

EPA's Frequently Asked Questions about the Sediment Processing Facility or Facilities [October 2021]

The cleanup plans for the lower 8.3 miles and upper 9 miles of the Passaic River call for dredging contaminated sediments from the river, which need to be processed at a sediment treatment facility or facilities. This fact sheet [[click here](#)] answers frequently asked questions such as what a sediment treatment facility is, where it might be located, and how community health and safety will be protected.

Shereen: Any estimate of when the FAQs will be finished so that we can post them and distribute them?
